Authorization for this examiner's amendment was given in a telephone interview with Lisa Fulton on May 26, 2005.

The application has been amended as follows:

Claim 4, line 2, the word "associated" has been replaced by - - in contact - -.

Claim 34, line 6, the word "associated" has been deleted.

Claim 40, lines 5 and 6, the word "associated" has been changed to - - in contact - -.

2. The following is an examiner's statement of reasons for allowance:

article comprising an adhesive layer, a backing layer in contact with the adhesive layer and a release liner comprising a first surface in contact with the adhesive layer and a second surface, wherein the first surface is embossed to provide a plurality of outwardly extending protrusions that penetrate said adhesive layer to make substantial contact with said backing layer, and wherein said adhesive layer does not contact the land of said release liner layer. The land is understood to be the area around the bottom of the protrusions as shown in figure-1. the prior art also fails to teach the method using the claimed article. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
